FOOTBALL MEN OUT IN RAIN

Make-up of Team Very Doubtful

TACKLING VERY WEAK

Waterous Undergoes Operation
Third Team Men Wanted

To-day's practice of the senior Rugby team will be their last hard work-out before Saturday's game. Shaughnessy, in the dressing room after the practice yesterday, especially stated that he wanted every one of the men out at three o'clock, as a very great deal depended upon the team having an exceedingly good work-out.

The McGill men are still suffering from injuries received in the Queen's game, and several of the players are far from being in a fit state to stand the hard play of a regular game. A sensation was sprung yesterday afternoon when it was learned that Chuck Waterous, McGill's star middle wing, had undergone an operation early in the afternoon. At first it was feared that Chuck would be laid up for some time, but this rumor was soon denied by Waterous himself appearing in the dressing room. Chuck had been having some trouble with his left ear and yesterday the doctor who was attending him came to the conclusion that the wisest thing to do would be to perform a slight operation, which the trouble seemed to necessitate. Chuck was soon over the effects of the gas, which the doctor gave him, and was on the Campus watching the practice. Chuck will, in all likelihood, be out for a run around the track to-day and expects to be in the game on Saturday.

Pailey, Montgomery and several others of the squad are fairly well used up, but all hope to be perfectly well by Saturday afternoon. Shaughnessy was taking no chances with his backs yesterday, and gave the second team orders not to tackle the senior halves. Donnelly seems to be all right again and if he is needed on Saturday or if Shaughnessy decides to play him at inside he will be ready to get into the game.

The only absentees from yesterday's work-out were the two middle wings, Waterous and Lemay. The latter had some work which it was absolutely necessary that he should do.

Shaughnessy put his men through some stiff tackling practice, and from the attempts made to down the runner the team evidently need this sort of work very much. Only one or two men on the team seem at all able to get their men cleanly and neatly, and even such stalwarts as George Laing were missing their tackles. In last Saturday's game the tackling of the wing line was very weak on several occasions.

The Queen's halves repeatedly were

GAGE AN AMATEUR.

There has been much speculation lately as to the probability of McGill protesting Charlie Gage, the Varsity flying wing. It was definitely stated yesterday evening by one of the foot-ball executives who is in a position to know, that no steps would be taken by McGill to have Gage barred from Intercollegiate Rugby circles. It seems that Gage has taken out his amateur card and, consequently, the matter is brought to a close, and as far as any of the Intercollegiate teams are concerned, none of the players need worry about losing their amateur standing. It is very satisfactory that this matter is settled with once and for all, as both this season and last Gage's standing has been the reason of a good deal of comment and a certain amount of disturbance in Intercollegiate athletics.

able, by going outside the McGill wings, to run the ball back for a considerable distance.

The team's tackling must be deadly if they expect to down Varsity on Saturday, as the running game has always been the Blue and White's forte.

The line-up for Saturday is very problematical as yet, as Shaughnessy has two or more men for almost every position. The back division will probably be the same and also the right side of the wing line and the scrum-half are very indefinite. Montgomery will probably be at quarter again, but the rest of the make-up of the team will not be known till the men trot out on to the field on Saturday.

Varsity's weak point seems to be their back division, as their line is almost as strong as last season's, and was able in the R. M. C. game to hold the Cadets all through the contest. Shaughnessy's game is almost entirely a back division game, in which weight does not count for so much, but rather speed and endurance are necessary.

The Varsity half line, without Maynard, though there seems a chance of the latter's getting into the game, will be practically altogether made up of new material, and these new men without the steady force of a man of Maynard's ability, will do very well to put up any sort of a defence against Shaughnessy's veteran half backs, who with the exception of Brophy, have played senior football for several seasons.

The Toronto papers all seem to think that Varsity have the hardest game they ever played ahead of them when they tackle McGill on Saturday. From all accounts the Blue and White are in a somewhat crippled state, but it would be very surprising if between Coach Dr. Wright and Capt. Maynard, they did not manage to put a very strong team on the field on Saturday.

Now that the Gage question is settled, there seems to be nothing at all to interfere with Saturday's game being one of the most exciting and hard-

SUBSCRIPTION FOR MARSH

Medicine '17 Have Sent Contribution for Police Victim

OLD MAN VERY ILL

He Has Lost Much Time and Money Through Accident

Subscriptions are beginning to come in from all quarters for the unfortunate Mr. Marsh, who was an innocent victim of the fight between students and the police on Sports Day last year.

At the meeting of the Students' Society yesterday, Dean Moyse made a stirring appeal to the undergraduates of the University for aid to the ill-starred old man. At the close of the gathering the hat was passed and over thirty-three dollars was collected.

Another concrete evidence of the effect produced by Dean Moyse's address was the placing with the editor of the Daily, the sum of eight dollars and a half (\$8.50) which was collected by voluntary subscription in a few moments from the class of Medicine '17.

At the close of yesterday morning's meeting it was suggested that the different classes authorize their officers to take up subscriptions for Marsh. It is doubtful, however, if this suggestion will be acted upon. As the Students' Council are in no way responsible for the accident, it is not within its power to authorize the collection of money for this purpose by the different class officers. This is because it is not known whether the missile which fractured Marsh's skull was from the hand of a student or a policeman.

The general feeling among those present at the meeting yesterday was very much in favor of a contribution, which might go towards relieving the old man's sufferings, but the difficulty will no doubt be in its collection.

est struggles ever fought on the Campus. Yesterday it appeared as if the Campus might be damp for Saturday, but there is a chance that for the remainder of the week the weather will be fine, in which case the ground ought to be in the best of condition.

The second and third teams were out yesterday, but although the former had a good turn-out of players, the juniors are not putting in an appearance at all satisfactorily. As this team have a game to play on Saturday it is very necessary that a large number of men turn out, so that something resembling a team may be picked. Of course the weather was bad yesterday, but not too bad for football. Captain Hall expects a much better turn-out to-day, as his team must get together once at least before Saturday's game.

OUTSIDE CONTROL OVER EXPENDITURE SANCTIONED AT MEETING YESTERDAY

Students' Society on Record as Favoring Appointment of Controller to Supervise Disbursements of Council

NO OBJECTIONS VOICED TO DECREASE IN EXPENDITURE

Soccer and English Rugby Clubs Favor Policy—Dean Moyse Makes Plea For Injured Victim of Police Row

Shortly after ten o'clock yesterday morning the first of the two semi-annual meetings of the McGill Students' Society opened, a crowd of about five hundred undergraduates being present. The meeting passed off quietly and, unlike the stormy session of last spring, broke up about half-past eleven.

Last year the students appeared to be up in arms at the revelations of incompetency which had previously been made public by the Daily, while this year the general feeling was that the Council was doing all in its power to rectify the mistakes of its predecessors. Those who had been affected by the cut in expenditures this year had nothing to say and are apparently accepting the situation philosophically.

The only radical departure decided upon at the meeting was the decision to allow the appointment of a controller who is to exercise a supervision over all undergraduate expenditures. This was done after very little discussion, the change in student government being accepted without any objections. It was apparent that the undergraduates realize the difficulty before them and are willing to do anything in reason to better matters.

The big hall was almost filled, only the last few rows at the rear being empty. The minutes of the previous meeting were read and accepted, after which President Shirley Dixon spoke about the vote on the caution money, which was passed last spring. Mr. Dixon said that although \$3,500 had been voted only \$1,100 had been collected. Many students who had been present at the meeting when the money had been voted, had refused to pay when the time came.

Regarding the motion made by Mr. Cassels that a committee be appointed to investigate the dealings of those who were in charge of the Supply Room fiasco, this had been done. The committee had made a thorough inventory of the stock and books of that institution and all stock possible had been returned.

Mr. Hall then stated that the Graduate Advisory Board which had been appointed last year had added the Students' Council in no small degree. Mr. Dixon read his report, after which Mr. Johnson read the financial statement. Mr. Hall, president of the

Daily, read the financial statement of the paper.

The matter of the curtailment of Council expenditures was then brought up by Mr. Dixon. The football, soccer and English Rugby expenses had all been cut down. The latter two clubs, in fact, were to be self-supporting for this year at least. The resolution then read in relation to the work done by Hugh Griffith on the Daily during the summer. It was largely due to his untiring and disinterested efforts that the paper had been launched again this year. In connection with the Daily, Mr. Dixon stated that a surplus of \$1,000 was hoped for from this branch of student activity.

The council were hoping for a loan to pay off the deficit contracted during the last three years. This was only possible if it were decided that the governors should appoint a controller to supervise the expenditures and books of the Students' Council. It was then moved by Mr. Matheson and seconded by Mr. Hershorn that the financial reports as read be adopted. This was carried.

Mr. John Kerry then inquired as to what the prospects were for recovering the students' supply money from Mr. Stevenson, whose operations came in for so much unfavorable comment last year. President Dixon's reply might be summed up in the words, "No immediate prospects."

Bill Hughes then stated that as the students were in debt and as the debt had to be paid it might be well to discuss any means that there might be of doing this. Some discussion on the projected idea of a controllership might be in order.

Mr. Wanklyn asked what means had been suggested for the raising of money and asked to have an explanation of what a controllership would entail. The reply to this was given by Shirley Dixon, who stated that the idea was to prevent any such foolish and unwarranted expenditures as were made last year.

Mr. Hershorn said that those who, at last year's meeting, had voted to pay a proportion of their caution money had not done so. It did not seem possible in any way to raise money through this method. Mr. McConnell suggested that an effort be made to canvass every student. In this way

it might be possible to procure some money.

It was then moved by Mr. Matheson and seconded by Mr. Kerry, that the proposal of having a controller appointed and thereby raising a loan to pay off the present deficit, be ratified by the meeting. This motion read that "this meeting place itself on record as being in favor of the scheme advanced by the Council." The motion was carried.

In the discussion which followed, Mr. Johnson said that by appointing a controller the Council would have his advice.

Dean Moyse then rose to speak regarding Mr. Marsh, who was hurt in the fight with the police last year and made a strong appeal to the students for aid to the unfortunate victim.

Dean Moyse laid stress on the fact that he was not speaking on behalf of Marsh because a student threw the stone which laid the old man low. A voluntary subscription from the undergraduates, however, would not be out of place, as there was no doubt that, to a certain extent at least, the students were responsible for the fight. Dean Moyse then went on to read the correspondence in this case. These letters went to show that Mr. Marsh had been badly injured by the impact of the stone and had for some time been under the care of a physician.

Letters had been sent by the Dean to the Students' Council asking that something be done and Marsh had written to Dean Moyse several times on the same subject. These and a doctor's certificate stating the unhappy condition of the victim's health were read.

Dean Moyse then went on to refer to the Daily in complimentary terms. The Daily had taken the right stand on several questions and the tone of the paper was greatly improved. Regarding the editorial on the antiquated initiation systems, the Dean stated that it was right that the freshmen should be extended a welcoming hand.

Mr. Hershorn then moved that the money for Marsh be collected immediately, and proceeded to do so until objections were made. These were soon over, however, and a hat was passed, some thirty-three dollars being collected in this way.

Mr. Argue then moved that the meeting adjourn. The motion carried.

LIST OF ENTRIES CLOSED FOR ANNUAL SPORTS DAY

Events Should Be Keenly Contested—Several Men Entered From Macdonald College

Yesterday was a rather quiet day in track circles. A few men were about in the morning but the rain kept most of them from their workouts. Judging from the hard and consistent practice most of the men have been putting in, however, a day's rest will not do them any damage. They all seem in tip-top condition, in fact several of them have contented themselves with light runs for the last few days just to keep limbered up. The ground was too wet yesterday to admit of any work being done in the field events, and the sprinters too, were most of them absent.

Most of the quarter men and half milers, however, braved the storm and cold and had their turn on the track.

Fraser and Hovey, entered in both these events, Moore, Lowry, Parsons, Sherlock and White were all out, and constituted most of the squad that Coach Hovey had on hand yesterday.

The entry lists below point to a very successful meet, although in some events there is room for more competition, and if one may judge from the inter-year sports of 10 days ago, the attendance will be large. Above all, though, the Freshmen and Sophomores should be out—all in a bunch to support their respective years in case of hostilities. The meet will be held sharp at 2.30, Friday, October 17th, on the M. A. A. grounds in Westmount.

The entries are as follows:

150 Yards—B. A. Klein; E. A. Cushing, '15.

High Jump—B. A. Klein; D. C. Smelzer, '17; E. A. Cushing, '15; Dougall, '14; Jacks, '16; Evans, '15 (last three McDJ).

Broad Jump—D. H. Macfarlane; Fraser, '15; A. Klein; D. C. Smelzer, '17; E. A. Cushing, '15; H. W. Rittenhouse, '16; Fraser, '16 (McD).

16-pound hammer throw—J. J. McDougall, '14; D. W. Sutherland, '17.

16-pound shot put—J. J. McDougall, '14; D. W. Sutherland, '17.

Discus—J. J. McDougall, '14; D. W. Sutherland, '17.

100 yards dash—Heller; Leach; D. C. Smelzer, '17; A. W. Heron, '17; A. E. Legault, '15.

220 yards—Fraser; Heller; Leach; A. M. Alberga, '16; G. F. Alberga, '15; A. W. Heron, '17; A. Legault, '16.

440 yards—Fraser; Heller; Leach; G. F. Alberga, '15; E. A. Cushing, '15; A. W. Heron, '17; R. W. Hovey, '15; Dougall, '14.

880 yards—R. H. Sherlock; W. C. Lowry, '16; A. M. Alberga, '16; G. F. Alberga, '15; M. L. White, '16; R. H. Woods, '17; J. D. Moore, '17; R. W. Hovey, '15; F. S. Parsons, '17; White, '16 (McD).

One Mile—H. E. Ralston; W. C. Lowry, '16; A. M. Alberga, '16; R. H.

Woods, '17; H. Crombie, '17; W. J. Rutherford, '17; L. J. Johnson, '16; J. D. Moore, '17.

120 yards hurdles—W. S. Lockhart; E. Pope, '17; E. A. Cushing, '15; R. T. Armstrong.

Three Miles—T. D. Pickard-Cambridge; W. H. Gerrie; G. S. S. Gordon; White, '16 (McD).

NOTES FROM "VARSITY" ON LAST WEEK'S GAME

R.M.C. Entertained the Toronto Players at the College

After the game Varsity were entertained to a Football Dinner at the Royal Military College. Captain McAuley and his father, Prof. McAuley, welcomed the players individually. After a meal of ten courses, the Cadets put on some very creditable vaudeville stunts. Cadet Drummond mystified his audience with his sleight of hand tricks. The Romeo and Juliet balcony scene was parodied well.

Captain McAuley gave a few words of encouragement to Varsity players. Harry Griffith emphasized the clean spirit in which the game was played. He told the boys that it is sometimes good to lose and bad to win. "You are in the game for the sport of it; don't sink below that level," "R.M.C., you beat us to-day but we will trim you in Toronto," said Harry concluding. Pete Campbell offered apologies for Captain Jack Maynard, who was unable to be present owing to his wrenched shoulder. Pete congratulated R.M.C. on their splendid showing and trusted that the Cadets would do the same thing to McGill when they journeyed to Kingston.

Varsity had twenty-six players in uniform on the field before the game. Charlie Gage had been doing all the "running up." The wing men must do more of it in the next game.

Varsity were called back ten times for alleged interferences and offside, sometimes when they had the ball two and three yards from the R.M.C. line.

R.M.C. didn't get their yards once by bucking the Varsity line.

It was the first time in history that Varsity had lost her opening Inter-collegiate game.

Harry Griffiths praised the Cadets for tackling low and keeping their positions. "You beat us to-day but you won't beat us in Toronto."

The "McGill Daily" had a scout at the game. After Varsity's defeat he phoned to Montreal: "I think we can do it too."—Toronto Varsity.

QUEEN CITY PAPERS ON FOOTBALL GAMES

The Varsity, Mail and Empire and Globe All Express Opinions

After out-playing the Cadets for three quarters of the game on Saturday, Varsity lost to R.M.C. by one point. The score of the first quarter was natural. It was only by the good work of the Varsity line that the score was not greater. The question which now confronts the team is "Can we defeat McGill in Montreal next Saturday?"

Pete Campbell says we can, with "Buck" Pearce back in the game and the whole team working against the seconds, strengthened by Varsity spares the Rugby team hope to be in such condition for next Saturday that they will make Coach Shaugnessy's team go the limit.

Captain Maynard though disappointed in Saturday's game, recollects how Varsity lost in Ottawa two years ago and then journeyed to Montreal where McGill was put to route. "Varsity is in the same predicament today. Time, ten, can, must, and will win in Montreal," says Maynard.

Though Jack was badly injured in Saturday's game the team expect he will be in the game in Montreal. He is by no means so badly injured as was conjectured at first. Jack is confident and full of hope. He will take charge of the halves during the week, and Charlie Gage will look after the wings and scrummers.

As it stands now either Queen's team is very weak and unconditioned, or McGill's squad is extraordinarily strong. R.M.C. will likely put away Queen's this Saturday night, whether they can hold McGill is another point.—Toronto Varsity.

Troubles never come singly as the officers of the University of Toronto football team know well. Jack Maynard's injury was a sore touch and put a decided crimp in the local collegians' chances for the championship, but another disaster was thrust upon the team last night. During the strenuous practice against the intermediates, Leeming Carr, the shifty half-back, was heavily tackled and as a result his ankle was badly injured. Just how serious the accident is was not known, but it is certainly a shock. Last night Carr was in the hospital, and he does get into the game by Saturday, he will favor the injured member, and he will be able to play to his best form.

With Maynard and Carr on the injured list and McKenzie also bothered with a bad ankle, the substitutes are having a thorough tryout. Last night Holmes, Lindsay and Milne composed the back division. Lindsay being the only member who participated in last Saturday's game. Just how strong this trio is was demonstrated last night. Of course they did not work as harmoniously as Maynard, Carr and Campbell, but in individual work they left nothing to be desired. Sheehy was worked out on the intermediate back division.

Coach Wright is determined that nothing will be left undone to beat McGill next Saturday. He knows that several of the players in last Saturday's

CAPTAIN JACK MAYNARD.

The latest report on Captain Jack Maynard's accident shows that no bones have been broken in his shoulder. There is a very bad bruise, however, and it is possible that some of the ligaments are torn. This mishap will keep him out of the game for a few days. It is rumored, however, that he will be in the McGill game next Saturday.—Toronto Varsity.

NEW MANAGER NAMED FOR FOOTBALL TEAM

Donald Skinner Who Formerly Held This Position Down With Typhoid

Donald Skinner, manager of the football team, or at least he was manager till just recently, is in the hospital with typhoid fever. Skinner had not been well for some time, and yesterday the doctor gave it out definitely that the manager of the team would be unable to fulfill his duties around the dressing room again this season as he was down with typhoid.

Skinner was making quite a success as manager of the team, and was very popular with the players and coach, who were all very sorry to hear of his illness.

The question of a new manager was at once brought up, as the men find it very hard to get on time if their belongings are not looked after by some one.

Buster Reid, who last year played on the senior team, is the new manager, he being appointed yesterday afternoon. The new holder of this difficult position ought to fully realize his duties, as he has played on the senior team for a couple of seasons, and consequently knows the ins and outs of a football player's requirements.

Buster Reid, when interviewed yesterday afternoon after the practice, stated that he was very pleased with his new duties, and felt the honor that had been done to him by appointing him to the position; but that if anybody could find him a seamstress, to sew up some of the player's suits, he would feel much relieved.

The game was far from in the best of condition. All this will be overcome before the end of the week. The substitute seniors are placed on the intermediate team, and everybody is working.—Toronto Globe.

Varsity was further weakened last Saturday. It was no pink tea, Gardiner at quarter sustained a sprained ankle during the practice with the intermediates. Carr had to be carried off the field, but later reports were of the opinion that Carr would be able to play Saturday, at least part of the game. In

C.O.Y.C. MEN FORM INDOOR BALL CLUB

Baseball Club Organized by the Members—Entered for the Military League

After the parade yesterday several members of the C.O.Y.C. organized themselves into a club to represent the detachment in the military officers' indoor baseball league. The officers elected were:

Hon. President—Lieut.-Colonel Burdland.

President—Capt. Helmer.

Vice-President—Sergeant Murlison.

Secretary-Treasurer—Capt. Lynch.

It was decided to hold practices at an early date, as the first game is to be played early in November. For uniforms the members of the team will wear little white ducks and shirts with a McGill crest, and under the crest the letters (in red on a white ground) C.O.Y.C.

The trophy is a large cup, well worth winning, and the team is determined to have a great try at coming out victors. To do this they have to defeat the other teams in their section and after this to defeat the winners of the other Montreal sections, and then to go to Toronto to play the winners there.

Great enthusiasm is being shown amongst the members and at 6 o'clock yesterday evening there were 26 names on the roll. The team means to get down to some hard practices and to do their utmost to be in form for the first match.

All members of the corps wishing to join should see Capt. Helmer or one of the other officers of the club.

In addition to Captain Jack Maynard and Carr, "Red" McKenzie is also laid up with a bad ankle, while Jack Knight, the speedy wing player, gave his ankle a twist in Kingston, and in addition is threatened with blood poisoning in the foot.

The list of injured and the defeat by R.M.C. Saturday would discourage any other team but Varsity. The players are getting down to practice as they haven't done for a good many years, and that means some work. Last night the seniors lined up against the intermediates, the latter strengthened by Lorimer, Clarkson and McDonald on the line, and Dug Gardiner at quarter. It was no pink tea exhibition by any means, as instances of bad blood crept up between the subs and regulars on different occasions, which the tackling hard and at times inclined to be scrappy.—(Mail and Empire).

Father Stanton had 25 men in uniform and the Tigers had 22, Jack Lewis the former McGill star, went in in the last session, and did grand work for the Tigers. Lewis has few superiors as a tackler. He will be with the Jungle Kings for the balance of the season. Jack is the son of Mr. T. Travers Lewis, of Ottawa, and though he disliked to play against his own town, the Hamilton people urged him into the game. Lewis is connected with the Westinghouse Company, with headquarters at Hamilton.—(Ottawa Citizen).

INCREASE IN REGISTRATION SHOWN BY LATEST FIGURES

Total Is Seventy-four Greater Than Last Year—Large Increase in Architecture

The registration figures which have just been given out show many changes over those of last year, the most important of these being the total increase in students registered. The figures for the session of 1912-13 were 1501, while already this year 1575 students have registered.

Last year there were registered in Arts 490; in Applied Science, 558; in Law, 64; and in Medicine 389. The registration this session so far is as follows: Arts 519, an increase of 29; Applied Science, 612, an increase of 54; Law 76, an increase of 12; and Medicine 377, a decrease of 12. Several of the old students have not yet registered. This is especially the case in Medicine. When all have registered it is practically certain that there will be an increase in Medicine as well as in all the other Faculties.

At the present date the figures show an increase on the whole year over that of last year of 74. The most noticeable features of this year's registration are (1) the large increase in the number of undergraduates in the First Year Arts, and the First Year Law, and (2) the rather remarkable increase in the Department of Architecture, there being 63 in the whole Department as against 42 last year. Of these 22 are in the First Year. The complete figures are as follows:

SESSION 1913-14.			
	Under-graduates.	Par-tials.	Total.
First Year:			
Men	100	35	135
Women	36	19	55
Second Year:			
Men	60	37	97
Women	23	83	106
Third Year:			
Men	63	26	89
Women	16	79	95
Fourth Year:			
Men	64	6	70
Women	22	86	108
Total			
Arts	519		519
Applied Science			612
Law			76
Medicine			377

At Tuesday's wrestling class a surprisingly large number of new men turned out. The executive of the club was much pleased with the interest shown in this form of sport and is very enthusiastic over the Wrestling's Club's prospects for the coming year. The great difficulty which the executive of the wrestling club encounters is in persuading new men to turn out. This is the first time such a large number of new men ever put in an appearance at an opening class and at today's practice, an even larger number is expected, as no man need feel in the least frightened about showing an absurd ignorance of the art of wrestling, as there will be many others present just as ignorant as himself.

The classes will be held, until further notice, on Tuesdays and Thursdays, from 5.15 p.m. to 6.30 p.m. at the Central Y.M.C.A. Membership cards may be obtained, free of charge, at the office in the Y.M.C.A., on presentation of grounds tickets. The clothes required are gymnasium pants and running shoes and long stockings are advisable, to afford protection to the knees.

After the close of the football season the football dressing-room in the Union will probably be used, both for practice and classes. In this place there will be room for two mats, which certainly will both be needed, judging from the large number of men that appeared on Tuesday.

The room in which the classes are being held in the Y.M.C.A. is the special exercise room, adjacent to the dressing rooms in the basement.

THE ROYAL MILITARY COLLEGE OF CANADA
There are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The United Photo Stores, Limited
508 St. Catherine & Peel.
132 St. Peter St.
MONTREAL.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastic drills, and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of 34 weeks each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about \$800.

The annual competitive examination for admission to the College takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Military Council, Ottawa, Ont., to the Commandant, Royal Military College, Kingston, Ont., H.Q. 91-3, 9-09.

MY STOMACH IS FINE
Since Taking Na-Dru-Co Dyspepsia Tablets

Mrs. J. Merkhuger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why.

"I was greatly troubled with my stomach," she writes, "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked like a charm. I have been taking them for some time now, and my stomach is fine now and I can eat my food."

One of the many good features of Na-Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal—they'll make you feel like a new person.

R.V.C. INITIATION MUST BE POSTPONED

Freshettes Will Not Be Introduced to Impressive Rites Till Next Week

The R. V. C. Sophomores and Freshmen are looking forward with varied feelings to the initiation. This ancient rite is disappearing from colleges and their brilliant green unchecked and unadorned save by a little friendly advice from the upper years. In 1910 for the last time in the history of McGill the Sophomores "1913" received the freshmen by a rush. After this, by request of the faculty, the men refrained from all forms of initiation.

In the R. V. C. however, the custom has been continued, proving very wholesome for the first year students, and as a rule by no means disagreeable. The effect is produced not by any use of physical force, but by that mental superiority which the Sophomores enjoy to so great an extent. So far, not even vague rumors of the nature of the performance have reached the outer world. It is certain that it will be something really impressive. Sports Day has generally been the date selected but owing to its being just before Thanksgiving, it must be postponed till next week. It is a pity that there is this unavoidable delay, as the freshmen always settle down to work much better and in a more seemingly spirit after the kindly advice which they receive from the Sophomores.

PHYSICAL EXAMS. COMPULSORY HERE

Dates and Hours of Inspection Given Out

Every student entering McGill University must be physically examined, and if not found in fit condition to work will be excluded from classes. The hours for examination will be as follows:

GYMNASIUM CLASSES SOON TO RECOMMENCE

The regular gymnasium classes of the University (open to students of all faculties) will be held at the Central Y.M.C.A. Building, Drummond street. The first class will meet on Wednesday, October 22, at 5.15 p.m.

On presentation of University ground tickets at the Y.M.C.A. students can obtain privilege tickets, without charge, which, however, duly entitle students to be present at the regular gymnasium periods or at club hours.

UNFORTUNATE BYSTANDER VICTIM OF POLICE FIGHT

Has Been Incapacitated Since Last Year Circumstances Are Straighted — Appeals to Students for Aid

Dean Moyse, yesterday, brought to the attention of the undergraduates a matter which had no doubt slipped the memory of most of those who attended the meeting in the Union. Although it had been almost fourteen the Dean's words were sufficient to recall it, and its sad circumstances vividly.

The case was that of the unfortunate Thomas Marsh. The case as it stands is this:

Mr. Marsh, a spectator of the fight between the McGill students and the Montreal police last October, was struck on the head by a large stone, thrown by some thoughtless person during the excitement.

The moment he was struck Mr. Marsh dropped senseless and remained in that condition for two days; and for sixteen days after recovering consciousness was laid up in the Royal Victoria Hospital in a more or less critical condition.

His misfortune was not confined merely to the loss of sixteen days but his eyesight has been seriously affected; so seriously in fact that he lost his position, which he had held for ten years. To a young man this loss of position might not have been such a serious matter, but to Mr. Marsh, who is now an elderly man, it is a decidedly serious question, and has been so during the past summer. He says, in a letter to Dean Moyse, dated Oct. 8th, 1913:

"It is very hard to get suitable employment and what little I had been able to save has gone and it has indeed been a very hard struggle for me to live this summer."

Mr. Marsh appealed to the students for aid in bringing his case before the notice of the students of McGill in the following letter, dated April 3rd, 1913:

Dear Sir,

I am in receipt of your letter of 27 ult., for which I am greatly obliged and I shall be quite willing to wait till the beginning of next session before any appeal be made but perhaps before the present session close it would be well to put in some small matter before McGill Daily just to keep the case fresh in the students memory but this you will know best.

I am humbly thankful to you for your promise to bring my case before the students and also for the time and trouble you have already given to my case.

Yours obediently,
Thos. Marsh.

Dean Moyse was also the recipient of a doctor's certificate showing that Mr. Marsh had not exaggerated the extent of his injuries in the slightest degree.

Last April Dean Moyse wrote to H. Morgan asking him whether the Students' Council was prepared to make any move towards aiding Mr. Marsh, the following letter was the reply to their communication from Dean Moyse.

Montreal, April 28th, '13.

Dear Sir,

Your letter of April 25th, addressed to Mr. Marsh, was put before the Students' Council at their meeting held on Friday last and the following motion was adopted:

Moved by Mr. Hall, seconded by Mr. Hugesen, that the Council as the executive body of the students of McGill University, without assuming any responsibility in the matter, are in favor of the action to be taken by Dean Moyse for the raising of a subscription for Mr. Marsh.

I trust that this motion will cover your requirements.

Yours truly,
L. A. Melville,
Secretary.

As the student body was one of the prime organizers of the fight in which Mr. Marsh, merely a spectator, was injured, it rests with that body to make what reparation is possible.

Without doubt, the students are under no fixed obligation in this matter. It is merely a question of honor. It may have been a McGill man who threw the stone, which injured Mr. Marsh. If so, it seems hard that the student body should be called upon to make reparation for the thoughtless action of some one else.

Not only would it be a question of suffering, but it might mean shortened life for the injured man for the endurance power of an elderly person under adverse conditions, is a factor not to be relied on very much.

Mr. Marsh, as he himself says, is in narrow straits and although \$35 was collected at yesterday's meeting for his benefit, that is a mere pittance hardly worth considering.

The only thing to be done is to organize a subscription campaign extending throughout the whole university so that some appreciable aid may be given.

This affair involves the honor of the University.

ORIENTALS AFFECTED BY BERI-BERI NOW

Dr. Harding Addresses Chemical Society on Subject

The first meeting of the McGill Chemical Society for the year 1913-1914 was held in the McDonald Chemistry Building last evening.

The following officers were elected: President, A. R. M. MacLean, M.Sc. Vice President—V. J. Harding, D.Sc. Secretary-Treasurer, R. Kirkpatrick, A. B., M.Sc.

Executive committee—Dr. A. Stansfield, Dr. A. S. Eve.

After the routine business the society was treated to a very interesting lecture on the beri-beri disease, which he took for his subject the disease beri-beri, which is prevalent among eastern peoples.

It was brought out that this disease was contracted by people who dieted on large quantities of polished rice. Unpolished rice on the other hand does not cause this disease. The lecturer went on to describe the great amount of research which has been done along this line and the discovery of a cure.

Since polished rice caused the disease and unpolished rice did not, it was certain that the polishes must contain the preventive substance. This was found later by extracting the polishes with alcohol and isolating the extracted compounds.

The preventive substance or the cure was found to be a substance to which the name Vitamin was given. Experiments have since proved the value of this mixture of substances.

This Vitamin is found in a large number of naturally occurring foods. The great value of this work lies in the fact that it indicates the necessity of minimum amounts of organic substances on metabolism.

After a general consideration of the paper and a vote of thanks to the speaker the meeting closed.

THE OTHER COLLEGES

Notes and News Gleaned From Exchanges

Missouri freshmen and sophomores have decided on a novel scheme to decide the underclass supremacy. Canvas bags will be placed on a line intermediate between the two classes and at the end of the half hour whichever class has the largest number of bags to its credit will win the scrap.

A corps of Yale men will help Harry Williams whip the husky Gophers into shape. Minnesota's coach, originator of several plays that have won fame for him and the Norwegians will try, it is said, to develop the new game to an extent that will make his team invincible.

Illinois men probably head the honor of opening early practice, for they were ordered to make their first appearance to-day "right after breakfast."

Destitute children are treated free of charge at the Stanford Medical school.

A big "C" will be built on the top of the flagstaff on the University of Colorado campus.

Courses for nurses have been added to the curriculum of the University of Missouri Medical School.

Resolutions were recently adopted by the Honor Association of the University of Chicago embodying the establishment of a court to try members of the student body for violation of the honor code.

Because of the death of half-back Belyea, of the Norwich University team in the Holy Cross game, the Norwich football games have been cancelled this season.

Engineers had better heed the Colorado University, for it is reported that there are twelve or more positions open to university engineers in that state as there are students in the engineering college.

C. O. T. C. NOTES

The C. O. T. C. lecture that was announced for to-morrow has been postponed to a week owing to the fact that most of the men wish to attend the sports.

The Sergeant-Instructor will be in the armory (425 Sherbrooke West) every day from 2 to 6 p.m., to examine, instruct, and help recruits.

The number of men in the Corps reached 109 yesterday, and the number shows how well the idea of the corps has been received at McGill.

It is expected that the miniature range will be in working order early next week, and all members are urged to make good use of the range.

A signalling detachment is in the process of being organized. All those interested should hand in their names to the authorities as soon as possible.

All members desirous of shooting at the Pointe-aux-Trembles range should hand in their names to Lieut. Hemming at once. All members are urged to go to the range as soon as possible, as the weather will soon be getting too cold for shooting.

All men wishing to try out for N.C. O's positions, (the examination to be held in about a fortnight) or wishing to enter for the Cert. A. examination at the end of the year should let the authorities get hold of their names now.

Only men of two or more year's service are eligible for the Cert. A. examination.

The subscription to the baseball club is only fifty cents. This is a club well worthy of the support of all corps men, and all should do so, if only to watch the team win.

Saw Him Too—"Is Miss Browne in?"
Maid—"No, Professor."
"But I just saw her at the window."
"Yes, and she saw you."

SCI. FRESHMEN GIVE SMOKER

Sophomores to be Entertained this Evening

RIVALRY PATCHED UP

Freshies and Sophs Will Bury Hatchet at Big Pow-wow

To-night there will be held in the Union a smoker, at which the Freshmen Class of Science will entertain the Sophomores of the same Faculty. Last year this same sort of method was tried for introducing the two classes to each other, and was highly successful. The Freshmen seem to fully realize that something is due to their seniors by a year, and last year did their best to give the second year a very pleasant time. It is certain that the Freshman Class this year are not going to throw themselves to be outdone by anyone, and are planning to give the Sophs, a very enjoyable evening.

For these smokers all the feeling which generally arises when these two classes meet, is kept under cover and nothing is allowed to happen which might in any way tend to bring matters to a quarrelsome state.

Yesterday afternoon in Strathcona Hall both the First and Second Years were holding meetings at the same time. The Sophomores finished with their business first and were dispersing quietly when some second year man suggested that they go up to Room 13 and see how the Freshie meeting was progressing. The result of this investigation was a fairly general rough-house, in which several pieces of furniture were badly damaged and one ground glass window broken. The secretary of the Y. M. C. A. almost immediately put in an appearance and was able to get the names of some of the men who were ringleaders in the disturbance. It is rumored that the men whose names he secured will be asked to pay one dollar each to cover the damages done to the hall. However, this has been the only clash between the two years so far this session.

It is expected that the smoker in the Union this evening will do much towards cementing the feeling between the First and Second Years in Science and the smokers which will be held later will probably do the same thing for the other faculties.

At the smoker to-night there will be music and songs, and some of the professors have promised to help the Freshmen out in entertaining the Sophs. Year and will either make a speech, probably humorous, or do some other stunt such as would be suitable at an entertainment of this kind.

It is a affair like these that the college spirit which does so much for every University, is really planted in the Freshmen. The smoker will start about 8 o'clock, and all the second year science men are invited.

CHICAGO PHYSICIAN CLAIMS SEX CONTROL

Believes That Experiments With Pigeons Might Be Duplicated by Humans

(Special to the Daily.)

Discovery of a scientific manner of controlling sex was announced yesterday by Dr. Oscar Riddle, research associate of the Carnegie Institution of Washington, D.C., and formerly of the University of Chicago.

Dr. Riddle declared that he had completed a series of experiments with pigeons by which the sex of birds produced from various eggs could be determined in advance. His experiments, he said, had determined that the vitality of the male was superior to that of the female. Whether this was true in the case of human beings, he said he was unable to determine.

The experiments were conducted by crossing two species of pigeons and by forcing them to a maximum of egg production. It was found as a result that eggs laid in the spring and early summer, when the parent birds were at the height of vigor, invariably produced males. Those laid from mid-summer on, after the vitality of the parent birds was decreasing produced females.

"That the sex of the human progeny can be controlled similarly is as yet impossible to say," said Dr. Riddle. "The facts gained, however, seem to indicate that sex in human beings is controlled also and the experiments suggest means of accomplishing that result."

"They show that with the birds sex has a quantitative rather than a qualitative basis, that there are no 'unbridgeable gaps' between the sexes and that eggs which produce male and female contain the same matter, but in varying ratios of composition."

"From this data the conclusion was reached that, biologically, the male sex was superior to the female and that the designation of 'weaker sex' as applied to women was accurate scientifically in spite of the current upheaval by the militant suffragettes. The germs which develop into the two sexes do so in accordance with the amount of germ energy they contain."

Dr. Riddle emphasized in his announcement that one part of these experiments is only a verification and a continuation of the work of the late Professor C. O. Whitman of the University of Chicago, who died without making public the extent of his researches.

Dr. Whitman found that sex could not be controlled by mating pigeons of the same species, but by crossing certain species he was able to foretell, by knowing the time of the year the eggs were laid and the number, the sex and even the color of the hatch.

Upon the death of Dr. Whitman, Dr. Riddle took up his work, verified the results previously reached concerning the control of sex, and then turned to a study of the similarities and differences between eggs which produce males and those which produce females.

MEETING IN R.V.C. OF MCGILL Y.W.C.A.

Freshettes Welcomed by Miss Leslie—Scope of Society's Work to be Broader

The opening meeting of the Y.W.C.A. was held in the Common Room of the R.V.C. on Wednesday afternoon. The form of an "At Home" in order to give the girls an opportunity of meeting the girls of the other years.

After refreshments had been served, Miss Pearl Leslie, the president of the society, welcomed the new girls, and expressed the hope that all would find the meetings of the association interesting and helpful, and would give their active support throughout the coming session. Miss Leslie spoke of the purpose and aims of the Society, laying particular stress on its desire to engage more extensively this winter in the department of social service. One opportunity for this work was afforded by the Camp Fire

SWIMMING EXECUTIVE ARRANGE FOR HOURS

Definitely Settled at What Times Water Polo Team Will Practice

The executive of the swimming club now announces that definite arrangements have been made with the Y.M.C.A. for the exclusive use of the tank on Tuesday and Thursday, from 4.30 to 5.30 p.m. and on Saturday from 4 to 5 p.m. These hours will be devoted to water polo practices at which every member of the swimming club will be admitted.

From these hours any member of the club will be able to use the tank at any time not in use by boys class, for diving and swimming practices.

In view of the proximity of the tank and of the fact that only five cents is charged for use of towel, soap and locker, many new members are expected to join the club.

Since Kenny and Baldwin have decided not to play again this season there will be a chance for some new men on the senior team. As regards the intermediate team new material is badly needed and all those who desire to get into the game should report to "Slim" Patterson, the captain of the senior team or to H. E. Serschorf, the manager.

A practice will be held on Thursday at 4.30 at the tank and it is necessary that all men should turn up, as the much wanted lack of practices in the game against Laurentian.

RECORD ATTENDANCE AT COLUMBIA UNIV.

Present Figures Show 10,469 Students Enrolled

Columbia University has achieved a new mark in registration this year, according to the figures given out by Registrar Frank A. Dickley. Including the summer session, the number of students enrolled is 10,469, with 5,930 already in the regular academic year. This is a gain of about 200 over the figures for the same date a year ago. On the basis of these figures the university authorities say that the enrollment, when the final figures are made up, may show that 14,000 students are in attendance.

THE COUNCIL'S POLICY

That the undergraduates as a body, realize the unfortunate position in which they have been placed by the contraction of a huge deficit, was clearly evidenced by the general tone of yesterday's meeting. The tendency seems now to lie towards a policy of retrenchment in expenditure, and careful supervision over any new ventures which may be launched.

This movement is in direct contrast to the feeling which seemed to pervade the minds of those who inaugurated certain ill-fated schemes last year. The operations conducted by our former "representatives" on the Council can only be described as a saturnalia of spending. No attention seemed to have been paid to the fact that there was a certain fixed revenue coming in, which had to be used to meet certain fixed expenditures. Why it was thought that a kind of half-baked department store could be run by a man having no previous experience and, as it happened, no capital, is hard to explain. The word optimists hardly describes the complacently taciturn ring who last year were labeled the directly-elected representatives of the undergraduate body. Whatever they did in their wisdom, however, was no doubt done with a view to furthering the students' interests. At any rate, it has been done, and the students must now face the problem of paying off the deficit in the best way possible.

This year's Council, as far as can be ascertained from the small amount of information given out, is dealing with the question squarely. As announced by the president, both in the columns of the "Daily" and at yesterday's meeting, financial support has been withdrawn from the soccer and English rugby clubs, while expenses are being cut down all along the line. The most pleasing feature of this policy of retrenchment, however, is the fact that the undergraduates realize the necessity for such action and are ready to support the Council in carrying it out. Even those who might be expected to raise objections, namely, the members of the soccer and rugby clubs, are looking at the matter in the proper light, and have made no public protest. It is, no doubt, unfortunate that a few of those who pay athletic fees should be refused the same support as others who go in for other forms of sport, but it is only right that if expenditures are to be cut down, the few should suffer rather than the many.

Although the curtailment of expenditures is an act which affects the undergraduates most closely, it is not the only step which has been taken to ensure a sane and practical student government. From this time on, there will be a controller to supervise all expenditures, and keep a watchful eye on any possible ebullitions of ignorant optimism which may crop out on the students' duly-elected representatives. To some, the appointment of an outsider who will have supreme authority over money paid directly by the undergraduates for their common use, may seem a reactionary and, therefore, unwise move; but, when it is remembered that without such supervision we accumulated a tremendous debt, all doubt as to its wisdom must cease. The fact that the controller will be an outsider, and will therefore have a different point of view than those at the head of undergraduate affairs, should have a steady influence on our governing body; an influence which, unfortunately has been sadly lacking in the past.

To make the latest change in our system of government a success, however, certain things are necessary; and it might be well to call attention to them at this juncture when the attention of the students is directed towards the Council and its supervisor. In the first place it is necessary that the man appointed should be in close touch with student affairs and in sympathy with the students themselves. If this is not the case, there will undoubtedly come a time when the undergraduates and their controller disagree. Should this ever happen the results would probably be startling to say the least. It might also be as well to define exactly the powers which such controllership would entail. As yet nothing has been said with regard to this feature of the case. As far as can be ascertained, the students have sanctioned the appointment of a supervisor whose powers are absolutely unknown to them. If there is to be a limit to his authority it should be generally known what that limit is, and if his power is to be absolute, this should be made public; in fact, it should have been made public before the students were allowed to vote on the question at all.

These are matters, however, which, if they have not already been settled will no doubt be satisfactorily dealt with in the near future. They are but incidental to the main issue which is that a concerted effort is being made to progress carefully in the development of undergraduate life, and in which the appointment of a controller is a step in the right direction. Whether or not the scheme works well, will depend, firstly, upon the personality of the man who is appointed to the position and, secondly, upon the extent and finality of his authority. The Students' Council has undoubtedly pursued the wisest course in adopting its policy of retrenchment and reaction. All that now remains to be done is to give the undergraduates full and definite information on these, and any other matters of vital concern to them.

ROOTERS' CLUB SONGS

(Tune, "What's the Matter with Father?")

What's the matter with George Laing he's all right,
What's the matter with Paisley, he's all right,
Now all you fellows from Old McGill,
Cheer that team till their hearts do thrill,
What's the matter with our team, they're all right.

(Tune "In Old New York")
At old McGill at old McGill
The campus crop is fine (SURE).
They're always there,
They're on the square,
For scarlet and white are in line,
We've seen the teams that come from Queen's and Varsity,
Likewise from 'Varsity,
They're pretty fair but can't compare with M-C-G.

When we get hold of Queen's to-day
When we get hold of Queen's to-day
We'll push that old ball over
And over and over
Oh! Oh! Oh! Oh!
Don't be afraid.

When we get hold of Queen's today
When we get hold of Queen's today
We'll show them an improvement
In the latest football movements,
When we get hold of Queen's today

(Tune, "Row, Row, Row")

So now we'll shove, shove, shove,
Way up the gridiron we will shove,
Shove, shove,
Another kick we'll send them every now and then
We won't tell them when,
A run around the end, I guess,
Will fool old Queen's again,
And then we'll shove, shove, shove,
Queen's a bit further we will shove,
Shove, shove,
That their line we will be
And then I guess you will see,
Another score, score, score.

Get a wiggle on, get a wiggle on.
Get a wiggle on, get a wiggle on.
Get a wiggle on, get a wiggle on.
We're ready to start.
Now we want to hear you,
Get a wiggle on, get a wiggle on,
We're ready to start.

They say that Paisley, he ain't got no style,
He's got style, all the while,
He's got style, all the while,
They say that Paisley, he ain't got no style,
He's got style, all the while, all the while.

(Tune—"Melinda's Wedding Day")

It's a holiday—Everything is gay,
Get the hands to play—move the crowds away,
McGill plays the Kingston boys,
And they're going strong—Just look at the throng,
Lordy, look who's here—Now they're coming near,
Smile from ear to ear—Everybody cheer
Just stand up and shout "Hurray!"
It's McGill's Football Team.

Just clap your hands and keep time
Here they come down the line,
Oh! see the Red and White—See them fight,
Horns are blowing—Canes they're waving,
What's that—that's that—Was that the colors flying?
Get to your feet—Go on and stand on your feet,
Because they'll soon be on their way—
Yea—Bo—Let the world know,
It's McGill's Football Team.

(Tune—"On the Fall River Line")

On the good old Campus Grounds,
On the good old Campus Grounds,
Queen's fell down before our attack—
Our men sure made them sing,
Then next we'll meet Old Varsity—
And do the same old thing,
And they'll swear—you bet,
Coming champs they met,
On the good old Campus Grounds,
M-C-G-I-L-L.

McGill, McGill, McGill, (McGill)
Oh Paisley you're a friend of mine,
Oh Paisley you're a friend of mine,
Oh Paisley you're a friend of mine,
With your hands in your pocket,
And your eyes on the clock,
Oh Paisley you're a friend of mine,
(Tune, "In My Harem")
At McGill, McGill,
There's Laing, Draper, Paisley,
And they're at it every minute,
Sure Varsity's not in it,
Queen's for breakfast and dinner,
R. M. C. will do, you can bet they'll
cheer for you, because we're out for
At McGill, McGill,
There's Monty, Chuck and Brophy,
We shout and sing
Till we make the campus ring,
With the echoes of old McGill.

(Tune, "Good Bye, Boys")

Good bye, Queen's, we're going to be
Champs, of the Season,
Good bye Queen's we're going to buck
up and reason,
No more crossing over our touch line,
No more success in bucking our line,
You better stay away,
We've got you licked to-day,
So—Good Bye, Queen's

(Tune, "Hamburg Show")

Oh, we're going to that football game,
To see the McGill boys trim old
Queen's
And we'll all cheer together,
In fair or stormy weather,
For we're going to see them trim Old
Queen's.

(To the tune of Tammany.)

James McGill! James McGill!
Peacefully he slumbers there,
Blissful though we're on a tear,
James McGill! James McGill!

(Tune—"Take me to that Swanee Shore")

Oh, won't you take me to that football game,
So I can see Old McGill play once more,
Paisley's there—he's a bear,
There's Draper and Monty,
There's Tooley and Brophy,
And many more, no time have I to name,
The boys just arrived, now watch them in the game,
Down on the Campus there,
That's where the battles are,
Take me to that football game.

Tune—"Put Your Arms Around Me Honey"

Old McGill is out to win that cup again
Varsity and Queen's may fight, but
fight in vain,
R. M. C. may fight, but they will fight
in vain,
No team can drive McGill back,
No line stand our attack,
When the Red and White goes rushing
down the line,
They are almost sure to score a point
each time,
Watch, as we lead again
In that football game.

BY H. P. FORAN, ARTS '14.

(Air—"I'm the Guy")

We're the guys that put the foot in
football,
We're the guys that bring the cup here
every fall,
We're a one, two, three, four, cracker-
jack team;
We have got the speed and we've got
the steam;
We're the guys that put the "Pop" in
Paisley,
And the kick in Brophy's toe;
If you want a champion fourteen
We're the classiest bunch you've seen,
Look at us, we're the guys.

We're the guys that have a line on the
team,
We're the guys that could beat them
with nine men,
We're a one, two, three, four, cracker-
jack team;
We've got the speed and we've got the
steam;
We're the guys that put the drop in
the drop-kick,
And the scores on the scoreboard, too;
We're the best team in the nation,
And we can lead a team,
We're the team, we're the guys.

Air—"Somebody Else is Getting it"

Now Varsity is getting it, getting it,
Now Queen's is getting it, getting it,
Now R. M. C. is getting it, getting it,
Right where we gave it them before,
Now they're all regretting it, regret-
ting it,
And they're feeling pretty blue and
sore,
They used to think that they were fine,
But now they're losing all their shine,
Now Varsity is getting it, getting it,
Now Queen's is getting it, getting it,
Now R. M. C. is getting it, getting it,
Right where they got it once before.

Air—"On the Mississippi"

On the football field, boys,
On the football field, boys,
That's where we go winning along;
On the football field, boys,
We're full of untold joys,
When McGill is playing Varsity!
Then we keep on singing,
Keep the welkin ringing,
For we know they're winning—
On the football field, boys,
Dear old football field, boys,
The Cup for Old McGill!

Air—"My Hero"

Come, cheer, McGill for ever.
We can't lose the game;
Play! play! We'll fight for ever,
Ever the same,
Keep on! This game can not be lost!
Come on! For time is now flying fast!
Cheer Old McGill!
Cheer! Cheer! the plucky Red and
White!
Cheer Old McGill!

(Tune—"Everybody Two-Step")

Everybody turn out and yell for Old
McGill,
Everybody turn out and join the root-
ing drill,
Give your yell with all your might,
Everybody turn out and turn out right,
If you want to turn out, don't think
you shouldn't dare,
Everybody do it—Nobody ought to
care,
Everybody wiggle, waggle—then you
start a row, Everybody turn out
now.

(To the tune of "Marching Thru Georgia")

Now our team is on the field every
nerve and muscle steeled
And determined that they'll win or
lose today,
See those fellows sure and strong,
ready all the line along
Varsity will have to break and fade
away.

(Chorus.)

Cheer, then cheer for old McGill,
boys,
Raise your voices in a song,
We must beat them on the play,
For we're out to win to-day,
And the team in red and white'll
move along.

(Tune, "Dixie")

You want to be, you want to be
You want to be in old McGill, boys,
Where the Red and White are in the
fight,
Morning afternoon and night,
You want to see, you want to see
them today,
You want to see our team trip thru'
You can tell the world the cup comes
to M-C-G—well, we all know how to spell
it,
Yes, we're going, you bet, we're going,
Yes, we're going to win to-day.

Tune—"Yankee Doodle"

Varsity once had a team
They thought that none could beat
them,
Then they played McGill and found
That M-C-G could whip 'em.

(Chorus.)

McGill—double L,
McGill—double L,
McGill—double L,
That's the team that whipped 'em,
Now they have another team,
Of course that doesn't matter;
The Red and White are out for gore
To-day they'll whip 'em better.

Tune—"You Made Me Love You"

Poor old Toronto,
You bet we're going to beat you,
You bet we're going to beat you,
Hard Luck, Toronto;
We'll send that ball right through you,
We'll send that ball right through you,
For we have Jimmy Lee "Sure",
And Paisley too,
And with our Brophy
We'll trim your Varsity,
We'll show that ball through,
With Draper, Norm and Tooley,
We'll tear you up like fury;
You won't know what to do,
With a buck, then a kick, you'll soon
look sick,
Now's our chance to make some more
noise,
It's M and C and G and I and double
L boys,
When McGill meets Varsity.

Tune—"On the Mississippi"

Poor old Varsity and Queen's and
R. M. C.,
McGill will put them all on the pile,
We are out for gore, just watch us bump
the score,
That's going to knock life out of every
team that plays against us,
Hear those rooters yelling,
See our score is telling,
Shag's trick plays are telling,
Watch how Queen's is falling,
Watch how Varsity's falling,
Watch how R. M. C. is falling,
On that dear old Campus,
There's no team to beat us,
We will win again.

Tune—"Tennessee Moon"

Rush down, score a point for McGill,
Queen's can never stop us,
Varsity can't stop us,
R. M. C. can't stop us,
Even on their Campus,
Come on, rush down, bore a hole in
their line,
We're bound to win.

WASHINGTON UNIV. HAS YOUNGEST POSTMASTER

Became Acquainted With De-
mocratic Leaders Through
Woodrow Wilson Club

Seattle, October 15.—The honor of being the youngest postmaster in the United States belongs to a University of Washington student, Marshall W. Malone, 14, who has just taken office as postmaster at Linton, Ore. While in the University Malone, who was known on the campus as "Micky," organized the Woodrow Wilson club, and became first president of the organization. Although not of voting age, he became acquainted at that time with all the Democratic leaders of the state. Malone will not be back in school this year, as the postmastership of Linton requires his presence there. His opponent had held the office for six years, and was also mayor of the town, clerk of the school board and superintendent of the Sunday School. "This did not deter 'Micky,'" he went right after the job, although he had only just reached his twenty-first birthday. He secured the endorsement he wanted, and was confirmed by the senate three weeks ago.

KANSAS FACULTY PROHIBITS HAZING

Lawrence, Kan., October 15.—One of the traditions of the University of Kansas will become a thing of the past this year if the plans of the university council are carried out. It has always been the custom at Kansas, as well as at all other universities, to compel freshmen to wear some distinguishing mark or emblem. At K. U. all first-year men were compelled to wear skull caps, with different colored buttons to distinguish their various schools. An order from the university council to the men's student council orders them to refrain from making any declaration in regard to freshman hazing. In the past many cases of hazing have followed the order for the freshmen to appear on the campus in the proper headgear. Last year several free-for-all engagements followed the attempt of first-year men to evade the order. There is no possible chance that the student council can evade the order of the faculty. If they should do so they would have their power of student discipline taken away from them. There is much ill-feeling over the matter throughout the student body, many believing that the faculty is interfering in matters which do not concern them.

MR. WOODSWORTH WILL ADDRESS R.V.C. STUDENTS

To-night the students of the Royal Victoria College will enjoy the opportunity of hearing Mr. Woodsworth, famous not only as the author of "Strangers Within Our Gates," and "My Neighbor," but also as one of the leading workers among immigrants in Winnipeg. Mr. Woodsworth will address the students in the Common Room at 7:45 p.m. on "The Immigrant Problem."

RAILWAY STUDENTS TO VISIT MILE END

C.P.R. Interlocking Plant Will
Be Inspected To-day

A party of students from the fourth year of the railway course will visit the Mile End interlocking plant of the C.P.R. to-day. The party will leave room 35 of the Engineering building at one o'clock and will be in charge of Professor Willard. Any other students who wish to go are welcome, and the trip will give them a chance to examine the interlocking devices on the Canadian Pacific.

WILL CONTINUE TO PLAY SOCCER

Ann Arbor, October 15.—Michigan students will again have an opportunity to witness some snappy exhibitions of soccer football, the game which attracted so much favorable attention during its short life last fall. Director Rowe is in charge of the squad and will devote two hours each afternoon to this branch of sport. Two games have already been scheduled with the Michigan State Normal College at Ypsilanti, the first of which is to be played October 25 at Ypsilanti if a team can be whipped into shape by that time. If not, the date will be November 8. The second fracas is slated for November 29 at Ferry Field. Because of the interest manifested by the students in soccer last year, Director Rowe has announced the possibility of forming a separate team of the Cosmopolites. By this means it is hoped, not only to interest more active participants in the game, but also to entice it from the spectator's standpoint.

Old McGill is out to keep that cup at home.
Cheer for the Red and White!
So, rush down, don't let Queen's hang around.
So, rush down, don't keep Varsity around.
So, rush down, don't keep the Cadets around.
The goal of the Red and White.

Tune—"You Made Me Love You"

Shag made us beat you,
You know we had to do it,
We really had to do it,
We'll always beat you
For shag is here to coach us,
On that dear old Campus,
Of course there were times when
We lost a game;
Those times are gone now,
They'll not come back again,
We'll make us high for you,
We didn't want to tell you,
We got what we cried for,
A coach, yes, a coach, and the best in
Canada.
Now we'll show you how we'll trim you,
We've got the brand of football that
will scare you.
McGill means to hold that cup.
A. M. ALBERGA,
Science '16.

(Tune—"That's How I Need You")

Like the good Profs, pull the students,
Like the students, raise the flag,
Like the tennis already won,
So the Rugby champs, we'll win,
Like the field sports, we'll capture,
And the records break a few,
That's how we'll beat you.

Style and Quality a Strong Combination

'Style' in the New Hannan Clothing is a feature of every one of our Suits.

Whether you buy a \$16.00 or a \$40.00 Suit you will be classed among the well dressed, and have the satisfaction of knowing that you are wearing something that a combination of material, style and workmanship has made peculiarly distinctive.

No matter what your circumstances, our stock is extensive enough to suit your requirements, also your pocket book.

We show them in all models in Blue Serges, Black and fancy Cheviots, Worsteds and Cashmeres.

The Economy of Fine FOOTWEAR

You probably buy four or five pairs of shoes each year—the average person does.

"Popular priced" shoes that are never quite satisfactory in wear, fit or style—yet your yearly shoe bill totals high.

Wouldn't it be more economical to buy say, three pairs of really good shoes—at a lesser total cost—and be sure of comfort, perfect fit and correct appearance.

Three pairs of
INVICTUS SHOES

will give a year's good service — and they cost but little more than ordinary shoes.

They are the finest shoes you can buy—solid leather all through, skillfully designed on nature's lasts and will hold their shape until worn out.

Invictus Shoes are made in a wide range of new and distinctive styles calculated to appeal to discriminating people.

Begin to economize NOW by getting a pair of INVICTUS SHOES.

IRISH MARATHON IS LATEST RACE

Seattle, October 15.—A new and novel athletic event, called the Irish marathon, is to be started this year at the University of Washington by Dr. Hall. The track committee—Captain Williams, Johnny McFee, and Zell McClelland—will handle it. This unique combination of cross country and quarter mile race, being a six-and-a-quarter mile relay marathon run on the cinder track of Denny field by teams of twenty-five men from each of the four classes. Each man is to run one lap of the track, taking about twenty-five minutes to run the twenty-five laps. This event is to be pulled off between halves of the freshmen-sophomore football game, the winner probably counting towards the inter-class championship. Dr. Hall thinks that this will create interest in track
